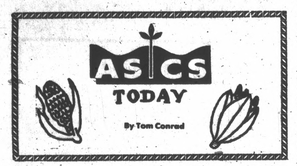
Preminary results indicate tobacco referendum passes

In the flue-cured tobacco referendum held December 18, preliminary results show that 32 percent of the flue-cured tobacco growers voting by secret ballot wished to continue the acreage-poundage marketing quotas and price support for the next three flue-cured crops. Out of 101 eligible voters, a total of 32 in Appomattox County voted with 32 in favor of continuing the program and none against.

Statewide 95.8 percent of the flue-cured tobacco growers voting indicated their support of the flue-cured tobacco program with 9,877 voting in favor and 437 against.



Polling places were open Wednesday from 7:00 a.m. to 7:00 p.m. in previously specified locations in the flue-cured tobacco counties.

At least two-thirds of the tobacco growers had to vote "yes" in order for quotas and price support to continue in effect for the 1980 flue-cured crops. In a referendum held in 1976, 99.6 percent of the Virginia flue-cured tobacco growers voting favored marketing quotas for the 1977, 1978 and 1979 crops.

The national marketing quota for the 1980 crop will be 1,095 million pounds, the same as for the 1979 crop. The national acreage allotment will be 590,615 acres.

Farmland Acres Treated For Conservation Problems - During 1979 more than 350 acres of Appomattox farmland were treated and served by one or more of the conservation practices available under the Agricultural Conservation Program (ACP). The ACP is the oldest and most widely used ASCS program.

To help farmers solve soil and water conservation problems, ASCS provided cost-share funds totaling $22,350. This assistance was used to carry out needed conservation measures. Such measures included seeding, liming and fertilizing, constructing livestock watering troughs and terrace systems, establishing sod waterways, and strip cropping systems, constructing animal waste and control facilities, planting trees and improving existing stands of trees. Seeding, liming and fertilizing and sod waterways are the most widely used conservation practices in Appomattox County.

Soil erosion is a number one problem facing farmers today. With today's more intensive cropping it is vital that producers perform good soil and water conservation practices such as those offered under the ACP.

The objectives of the program are to provide solutions to the problems of farmland being a source of agricultural pollution, or land affected by wind and water erosion.

About 100 farms were enrolled in the 1979 program.

Applications for the 1980 ACP or additional information on the program are available at the local ASCS office. We are continuing our sign-up through the winter and I urge farmers who are interested to contact us. It is a good way to save money.

USDA asks for comments on 1980 fire and sun-cured tobacco programs - The public has until January 18 to comment on how large the 1980 national marketing quotas should be for fire and sun-cured tobacco.

A final decision on quotas will be announced before February 1, according to Ray Fitzgerald, Administrator of ASCS.

Fitzgerald said national marketing quotas will be established for fire-cured (types 21-23) and Virginia sun-cured (type 37) tobaccos.

Further details about the programs for these types of tobaccos were published in the December 18 Federal Register.

Comments should be sent to the Director, Price Support and Loan Division, USDA-ASCS, P. O. Box 2415, Washington, D. C. 20013. The comments will be available for public inspection in the Office of the Director, Room 3741 of the Department's South Building.

Pamplin Elementary School menu for January

Wed., Jan. 2 - Chicken noodle soup, peanut butter sandwiches, carrot sticks, peaches, cookie, and chilled milk.

Thurs., Jan. 3 - Hot Dog on bun w/chili, buttered green beans, hot gingerbread, and chilled milk.

Fri., Jan. 4 - Bologna, turnip greens, pineapple cake, potato chips, and chilled milk.

Mon., Jan. 7 - Pizzaburgers, potato tots, buttered carrots, spicy applesauce, and chilled milk.

Tues., Jan. 8 - Chili beans, crisp coleslaw, fruit, cookie, roll, butter, and chilled milk.

Wed., Jan. 9 - Fried chicken, buttered green peas, whipped potatoes, sliced bread, and chilled milk.

Thurs., Jan. 10 - Hamburgers, potato tots, turnip greens, peaches, and chilled milk.

Fri., Jan. 11 - Hot turkey roll w/gravy, green lima beans, mixed fruit, peanutbutter cookie, roll, and chilled milk.

Mon., Jan. 14 - Hot Dog w/onion, vegetarian beans, green pepper slaw, chocolate pudding, and chilled milk.

Tues., Jan. 15 - Cheese Pizza, french fries, buttered green beans, and chilled milk.

Wed., Jan. 16 - Sausage Pattie, candied sweet potatoes, seasoned greens, hot biscuits, and chilled milk.

Thurs., Jan. 17 - Batter dipped fish, green peas, fruit, cookie, hot cornbread, butter, and chilled milk.

Fri., Jan. 18 - Teachers Work Day.

Mon., Jan. 21 - Tomato soup w/crackers, grilled cheese sandwiches, sliced peaches, and chilled milk.

Tues., Jan. 22 - Turkey w/gravy, green peas, baked tomatoes, hot roll, and chilled milk.

Wed., Jan. 23 - Pepperoni and cheese pizza, french fries, sliced pineapple, vanilla cookie, and chilled milk.

Thurs., Jan. 24 - Hot dogs, potato tots, turnip greens, peanuts, and chilled milk.

Fri., Jan. 25 - Meatloaf, green peas, buttered corn, hot roll, and butter, and chilled milk.

Mon., Jan. 28 - Chicken noodle soup, bologna sandwich, potato tots, peaches, and chilled milk.

Tues., Jan. 29 - Turkey roll w/gravy, candied sweet potatoes, buttered green beans, roll, butter, and chilled milk.

Wed., Jan. 30 - Baked ham, sliced tomatoes, buttered corn, apple sauce, hot biscuits, and chilled milk.

Thurs., Jan. 31 - Seafood pattie w/tartar sauce, french fries, tossed salad, hot bun, and chilled milk.

HAPPINESS IS 4-H

By Frank H. Sweet
Extension Agent

The Appomattox 4-H Teen Leader Club provided Christmas cheer for fifteen first and second graders during their annual 4-H Christmas program Dec. 19. Many individuals and groups provided gifts and materials for the Christmas program: The children were treated to recreation and games, a special supper, and finally, a visit from Santa Claus.

* * *

A reminder to Senior 4-H members that Achievement Records are due in Extension Office for review Jan. 18. Final records must be mailed to the state 4-H office on Jan. 25.

* * *

The Annual 4-H Awards Program will be held Monday evening, Jan. 21, at 6:30 in the cafeteria of ACHS. A covered-dish meal will be followed by presentation of 4-H awards. Members involved will receive invitations in early January.

* * *

Adults who have assisted with various 4-H programs during 1979 should remember that their out-of-pocket expenses for 4-H are tax deductible. Mileage driven for 4-H (or other similar organizations) is deductible at the standard rate of eight cents per mile. Details may be found in IRS Publication 526.

* * *

4-H Public Speaking programs will be taking place in late January. Now is a good time for 4-H members to begin making plans to participate in this worthwhile 4-H program.

* * *

A new category for Health demonstrations or illustrated talks has been added at the senior level. The top two health demonstrations on the district level will have scholarships to State 4-H Congress.

* * *

The 1980 Citizenship-Washington D. C. Focus (old Citizenship Short Course) will be held at the National 4-H Center in Washington, July 13-19. We have details, costs, etc. Deadline for registration is April 1, 1980. David Caldwell participated in this conference last year and said it was one of the best 4-H events he'd ever attended.

Santa visited Wilbun's Store

On the Friday before Christmas, Santa Claus visited Wilbun's Market to wish everyone a "Merry Christmas". Santa, with his real-life beard stopped by the local store unexpectedly but we were fortunate to get his picture with Matt Conrad, son of Mr. and Mrs. Tom Conrad of Appomattox.

N & W Railway plans to spend $162.9 million for capital improvements in 1980, official says

Roanoke, Va., Dec. 17 – Norfolk and Western Railway plans to spend a record $162.9 million for capital improvements in 1980, $8.3 million above the previous record of $154.6 million set in 1966.

John P. Fishwick, the railroad's president and chief executive officer, said, "the planned capital expenditures reflect NW's dedication to providing continued high-quality rail service to freight shippers, and the Company's confidence in its future."

The budgeted totals include $60.5 million for roadway expenditures and $102.4 million for equipment. Of the 1980 total, $41.8 million represents work on projects begun in prior years.

Major equipment additions planned for NW's fleet in 1980 include:

–25 new six-axle, 3,000-horsepower, diesel-electric locomotive units costing $20.2 million. (The order for these locomotives was previously announced.)

–228 new fully enclosed tri-level racks for carrying automobiles, and 23 enclosed bi-level racks for larger motor vehicles, costing $10.6 million. (This order also has been previously announced.)

–500 additional covered hopper cars, costing $20.2 million, for grain hauling, at a cost of $19.2 million. These cars are being built in NW's Roanoke Shops. The newly budgeted 500 cars brings to 1,000 the number of jumbo grain hopper cars NW is building. Construction of the first 500 jumbo grain cars by Ingram November 1.

–500 100-ton capacity gondolas, for carrying steel products, costin $17.1 million, to be built in the Roanoke Shops after the covered hopper cars are completed.

–300 2,980-cubic-foot 100-ton capacity covered hopper cars for hauling cement and other dense materials, costing $12.9 million. (NW's Board also authorized ordering of an additional 500 similar cars for delivery in 1981, at a cost of $22.6 million.)

–(NW has also previously announced an order for 278 86-foot, 100-ton capacity box cars used for hauling auto parts, costing $22.7 million, to be delivered in 1981.)

–250 new 45-foot truck trailers for use in piggyback service, at a cost of $3 million.

NW's roadway capital expenditures program includes capital outlays of $9.8 million in connection with its planned rail renewal and betterment program, large portions of which are charged to operating expenses rather than to capital expenses under prescribed railroad accounting procedures. The program calls for installation of 160 track miles of new continuous welded rail, 161 miles of "fit," welded rail that is, rail which is in good condition that has been removed from other sections of track, welded into continuous lengths, and relaid), and additional ballast in connection with laying new welded rail. The track maintenance program also calls for installation of 50,000 new crons and ties, all of which are charged to operating expenses.

In addition, NW will spend $468,000 to install new defective equipment detectors at several locations, $563,000 to install a new remote controlled switching system at Portsmouth, Ohio, $2.8 million to install a new computer to control its hump yard switching operation at Bellevue, Ohio, $561,000 to establish a freight car truck bolster reclamation shop at Roanoke, and $3.5 million to purchase new and replacement roadway maintenance equipment. In addition, the railroad plans to spend $873,000 to buy a dozen side-dump cars that are used for hauling rock ballast and rip-rap used in track maintenance, $681,000 for two new locomotive cranes used in track work, and $721,000 for equipment to be installed on flat cars that allows handling of lengthy sections of continuous welded rail. The new welded rail equipment and the cranes will replace old units that will be retired.

The budget also calls for expenditures of $3.8 million in 1980 for pollution abatement projects.

Pamplin auto tags on sale

Automobile tags for the town of Pamplin went on sale yesterday (Wednesday), according to a release from the town office.

Tags must be purchased by Jan. 31, according to the release.

The town office will be open only three days a week, according to the release, Mondays, Thursdays and Fridays the office will be open from 8:30 a.m. to 4:30 p.m.

Microwave Cookery

Microwave ovens can save time and electrical energy. They also help preserve the nutritional quality of foods. But when using microwave ovens, people must be aware of how this new method of cooking differs from traditional methods and be prepared to make adjustments in their cooking techniques.

It is not correct really to think of microwave ovens as ovens. They function very differently from traditional ovens.

Microwaves use a form of energy similar to radio and TV waves which makes the water molecules in food vibrate rapidly, thus producing heat. Because this method heats food very quickly, it can sometimes be used for defrosting, baking, reheating food during a meal, heating leftovers and cooking for small families or making single servings.

If you received a microwave oven for Christmas, be sure that you read the use-care manual very carefully. This is the first step toward adjusting your present cooking technique to a microwave oven.

Microwave cookery gives results that are closer to the effects possible with the top of the range techniques. Although it is excellent for many things, microwave cookery is not good for browning meats and may not be the best method for cooking large roasts or large portions of meat. High liquid items such as puddings mixes or soups that must simmer for a long time on low setting, may require enough cooking time in a microwave oven so that neither time nor energy is saved.

Unlike traditional ovens which generally cook in the same amount of time no matter how much food is placed in the oven, microwave ovens require additional time for additional amounts of food. For example, one potato may cook in a microwave oven in about 4 minutes, but 6 potatoes would require nearly six times that length of time. Although large amounts of food can be cooked by the microwave method, doing so may not save time. It will save some electrical energy.

Using the microwave oven for things it does well, however, will result in better nutritional food quality, in addition to saving time and energy. Because foods cook in shorter times and require less liquids, nutrients are better retained, as well as taste, color, texture and aroma of foods.

The important thing when using a microwave oven is to think "microwave." You have to change the way you cook to get the best use out of a microwave oven.

Rather than cooking many things at once, foods are cooked separately and in sequential order in most microwave ovens. In a sample dinner menu, the baked apples for dessert would be cooked first and allowed to cool while other items are being prepared. Last to cook of meat and items which require more time would be next. Then short cooking time items, such as vegetables and breads to be warmed, would be the next. Any foods needing to be reheated would be last on the list.

There are many microwave cookbooks available. You should have one with your microwave when you purchase it. These cookbooks explain the principles and how you can adapt tradition recipes to microwave cooking practices and techniques.

You will be interested in a microwave cookery demonstration which will be held at the Appomattox County Extension Office on January 22, 1980. This workshop will be on Tuesday morning at 10:00 a.m. and will last about 1-½ hours. The snow date for this meeting is Thursday, January 24, 1980. All programs offered by the Appomattox County Extension Service are open to anyone who wishes to attend.

If you have a homemaking question or problem, you may call the Appomattox County Extension Office at 352-8244 or write us at P. O. Box 488, Appomattox, Va. 24522.

On behalf of our staff, I wish to extend our best wishes to each of you and your families for a good 1980, filled with peace, good health and happiness. **Happy New Year, Homemakers!**

Recipe of the Week
Phyllis' Lasagne Napoli

[Note: This is a good change from the traditional holiday food.)

1 medium-sized onion, finely chopped
1 clove garlic, minced or mashed
2 tablespoons olive oil or salad oil
1 pound ground chuck
1 can (8 or 4 oz.) sliced mushrooms
1 can (8 oz.) tomato sauce
1 can (6 oz.) tomato paste
2 teaspoons salt
1 teaspoon oregano
¾ cup water
2 eggs
1 cup cream-style cottage cheese
½ cup grated Parmesan cheese
1 package (12 oz.) lasagne, cooked and drained
1 package (8 oz.) American cheese slices, cut in strips

In a medium sized frying pan, lightly brown onion and garlic in 1 tablespoon of the oil; add ground chuck, and break apart; cook until brown. Blend in mushrooms (including mushroom liquid), tomato sauce, tomato paste, 1 teaspoon of the salt, oregano and water; simmer for 15 minutes. Meanwhile, mix 1 of the eggs with the cottage cheese, Parmesan cheese, remaining 1 tablespoon of oil and 1 teaspoon salt. Beat the second egg slightly and toss with cooked lasagne. Pour half the meat sauce in oblong baking pan about 9 x 13 inches) and cover with a layer of half the lasagne. Spread all cheese mixture over lasagne. Complete layers with remaining lasagne and meat sauce. Cover and bake in a moderate oven (350 degrees) for 45 minutes. Remove cover and arrange strips of American cheese on top; bake 15 minutes longer. Serve hot. Makes 6 to 8 servings.

Thanks to Phyllis Wilson for, sharing this delicious main dish recipe with us.

Senior 4-H'ers sponsored cookie contest

by Susan Parris

Several senior 4-H'ers, Lisa Moore, Rhonda Nash, Laurie McLean and Susan Parris sponsored a Christmas Cookie Bake-Off Contest for 4th, 5th, 6th graders.

The contest was held Dec. 20, 1979, at the Appomattox Elementary School cafeteria. The gategories were: Homemade-Bar, Homemade-Dropped, Homemade - Roll, Mix-Decorated and Mix-Plain Cookies.

The contest was a big success. We thank each person for participating, and urge everyone to participate next year. This is going to be a continuing project for the 4-H program. The winners as pictured above from left to right are: Dorinda Woodford, 5th grader in Mrs. Davis' class, placed in the category Mix-Decorated Cookie; Rhonda Ranson, 4th grader in Mrs. Alvis' class, placed in the category Homemade-Roll Cookie; Jo Ann Jamerson, 6th grader in Mrs. Turner's class and Jessica Stanley, 5th grader in Mrs. White's class tied in the category Homemade-Dropped Cookie; and Sherry Wilcox, 6th grader in Mrs. Turner's Class, placed in the category Homemade-Bar Cookie.

Other participants were: Tammy Tomlinson, Jonathan White, Shawn Hastings, James Gregory Ayers, Kelly Harris, Cindy Garrett, Cheryl Simpson, Dawn Hancock, Wendy Harris, Angela Hackett, Wayne Peak, Janet Smith, Angel Goode, Audra Doss, Teresa Burger, Dean Peak, Becky Cook, Shannon Fox, Cindy Whitehead, Karen Gilliam, Terresa Taylor, Teresa Austin, Nancy Cole, Anne Hancock, James Cash, Donald Martin, Warren Moore, Mike Bohannon, Martha Haley, Robin LeGrand, Cheryl Wooten, Jennifer Coleman, Denny Drinkard, Wendy Lawson, Patricia Myrick, Cheryl Johns, Lisa Campbell and Lisa Harrison.

Congratulations 4-H'ers for a job well done.

Named to dean's list

Three local students have been named to the dean's list at James Madison University, according to a release from the university in Harrisonburg.

Teresa C. Cyrus, Mary K. Marshall, and Marie Fraley, all of Appomattox, qualified for the dean's list, according to the release.

In order to make dean's list, a student must have a gradepoint average of at least 3.25 on a 4.0 scale, and carry a course load of at least 14 hours.

Oakville

DEC. 20 - Miss Kathy Marshall of James Madison University is spending the Christmas Holidays with her parents, Mr. and Mrs. J. D. Marshall.

Mrs. John Davis of Dillwyn spent about 10 days with her sister, Mrs. Marshall Martin recently. Mrs. Davis and Mrs. Martin spent a portion of last week with their sister, Mrs. Alonza Martin in Lynchburg. Mrs. John Davis and Mr. and Mrs. Alonza Martin were weekend guests of Mrs. Marshall Martin. Mr. Maynard Davis and Mr. Gordon Martin were also guests in this home Sunday P.M.

Our hearts are deeply saddened by the death of Mr. J. Graydon Martin. Sincere sympathy is extended to the wife and family of the bereaved.

Mr. Warren Martin is spending some time with his mother, Mrs. Graydon Martin. He teaches in San Diego, California.

Mrs. James Becker was in charge of the Christmas Chorale given by the young people of Mt. Comfort Church. Those that assisted in preparing the delightful program were: Miss Marlene Moore, Mrs. Louis W. Moore, Mrs. Lewis Edward Moore, Mrs. Sarah Summers.

The Martin sisters, Mrs. G. W. Taylor, Mrs. L. K. Bussey, Mrs. C. T. Moses, Mrs. H. B. Smith, Mrs. M. W. Drinkard, Mrs. M. A. Hunter attended the Grand Illumination at Williamsburg Friday. They also attended the play "Miss in Her Teens" Friday night. On Saturday night Mrs. M. W. Drinkard was hostess for the Pre-Christmas dinner for the family. Those attending were Mr. and Mrs. C. T. Moses, Mr. and Mrs. H. B. Smith, Mrs. G. W. Taylor, Mrs. L. K. Bussey, Mr. and Mrs. M. A. Hunter.

Jordan News

The Sunday School will be sponsoring a program on Sunday night, Jan. 6, at 7. Plan now to attend.

On the second **Sunday night** at 7:00 regular preaching services will be held at the Jordan Baptist Church.

On the third **Sunday, Jan. 20,** at 3 there will be a special talent program. This program is being sponsored by the Ladies Club.

We are happy to report that Mrs. Ida Elliott has returned home from the hospital. Continue to remember her and Mrs. Viola Austin and all the sick and shut-in with prayers and visits.

Our wishes go out to everyone for a Happy New Year.
